

# THE INTERIOR JOURNAL

E. C. WALTON

THE State of Maine, which has had a prohibitory liquor law since the time almost that the memory of man runneth not to the contrary, has just enacted a law to enforce the prohibitory law, which strange to relate, was being violated everywhere. The enactment may close the bars for a season, but by the time the next Legislature meets they will be running wide open again and then there will have to be enacted "an act to enforce an act to enforce the provisions of the prohibitory law."

JUDGE PAYNTER ought to withdraw immediately from the Senatorial race. Urey Woodson says in his two papers, both daily, that he hasn't the ghost of a chance. But those who remember Woodson's predictions about Parker and his fantastic doings on the eve of the National election, will likely fail to accept such a prophet's predictions or regard him more than a man who talks too much with his mouth, without proper consideration of his assertions.

A NEW JERSEY justice of the peace has decided that a woman's tongue is a concealed weapon and that she should be punished as men are who are caught with a pistol or other weapon concealed on their person; that is to say when she uses her tongue as a two-edged sword. We have never felt the agony caused by such a weapon, but those who have say that that New Jersey justice is a man of great sagacity and understanding.

BILLY SUNDAY, the ex-base ball professional, who foretook the diamond for the pulpit, held a four weeks' meeting at Dixon, Ill., preached at five dancing clubs, converted three bartenders, closed several gambling houses and raked in \$2,750. A pretty good month's work for a professional preacher instead of a recent convert who has just gone into the evangelizing business.

GOV. FRAZIER, of Tennessee, jumped from private life to be governor of his State and after a short occupancy of the position now goes to the U. S. Senate. This is almost as remarkable as Grover Cleveland's jump from the sheriffship of Buffalo to the presidency of the United States. However, he was mayor of Buffalo and governor of New York in the interim.

DELAWARE has abolished the pillory but the whipping post still stands as a deterrent of crime. It is remarkable how few petty criminals are flogged in that State and how like the deadly plague those from other States shun Delaware for their operations. If this isn't an argument for the whipping post, name it and take it.

MRS. CASSIE CHADWICK says she wants to deny and "deny absolutely that Andrew Carnegie is her father." Mrs. Chadwick is wiser in her day and generation than most people if she can make such a declaration. It is always been regarded as the height of wisdom for a child to know its own father.

THE INTERIOR JOURNAL sends happy greetings and congratulations to Gov. Beckham. May the son, whose advent now gladdens his heart, prove a worthy scion of a noble family and some day fill the position so ably filled by his popular father.

THERE are said to be 65 grand dukes in Russia whose revenue, exempt from taxation, is stated at seven billions of dollars. As the great mass of Russians have barely enough to eat, there is little wonder that riots occur and that a duke is removed every time he gives the assassin a chance.

N. O. NELSON, a St. Louis millionaire, said in a speech the other day that the habit of getting rich was a very bad one. That may be and yet but few of us will ever try to divorce ourselves from such a habit.

THE U. S. Fish Commissioner says the lobster has been almost exterminated. Those that inhabit the sea may be, but the human lobster, like the poor, is always with us and shows no signs of race suicide.

BOOKER WASHINGTON was a guest of honor at a small club dinner in New York the other evening. The president dined with the coon, donkey, know, and white snobs are nothing unless imitative.

## MIDDLEBURG.

Farming and gardening are being delayed on account of the heavy rains. Miss Cora Wesley, of Liberty, is visiting relatives here. James Eason, of this place, has taken a position with the Chicago Veneer Co., at Burnside. A great revival is going on at the M. E. church, being conducted by Revs. Fellows, of Somerset, Roundtree and Taylor. Much good is being accomplished.

Rev. Willard Tilford has moved to Middleburg and is building a residence. Miss Vada Gifford, of Dye, is visiting Miss Ettie Gifford. Miss Bettie Tilford, of Liberty, is visiting relatives here.

## IN NEIGHBORING COUNTIES.

During the 14 months of its existence at Middleboro the United States recruiting office has enlisted over 300 men for the army.

On Richland creek, in Knox county, Thomas Barnes was fatally injured by being struck on the head with a rock by a man named Carnes.

Contract for the erection of the Citizens Bank, Southend, was awarded to A. M. Parsons over several competitors at about \$6,000.—Somerset Journal.

Mrs. Susan Shy Smith, one of the oldest and best-known women of Harrodsburg, died of a complication of diseases, following a severe case of grip. She was seventy years of age and is survived by three children.

The United Daughters of the Confederacy are to be congratulated upon their selection of Col. John R. Allen as the orator for their annual Memorial Day celebration, which will take place on the afternoon of June 3rd.—Danville News.

Frank Davis, the 17-year old boy who was arrested for attempting a criminal assault upon the 10-year-old daughter of M. Steele, was held to the grand jury under a bond of \$5,000. Davis admitted his guilt, says a Harrodsburg dispatch.

The bones of a human being were found lying in a hole near a rock fence on the farm of Mr. D. N. Prewitt this morning while he and another man were engaged in repairing a portion of the fence that had fallen in. At first Mr. Prewitt thought they were the bones of a dead hog or calf, but upon investigation he was horrified to see that they were the remains of a human. The entire skeleton, excepting the feet, was found and brought to the city, where they were turned over to a local physician. It could be plainly seen that the flesh had been off the bones but a short time.—Advocate.

## POLITICAL.

The Nebraska democratic editorial association elected W. J. Bryan president.

Reau E. Folk, brother of Gov. Folk, of Missouri, was re-elected State Treasurer of Tennessee.

Gov. Lea, of Delaware, signed the bill abolishing the pillory as an instrument for the punishment of convicts.

Judge George Denny has filed his application for the position of Collector of Internal Revenue for the Lexington district.

The President has appointed Truman H. Newberry, of Detroit, Mich., to be Assistant Secretary of the Navy, to succeed Charles H. Darling, resigned.

A dispatch from Washington to the Louisville Times says that Congressman Gilbert has about made up his mind to become a candidate for Governor.

Vice President Fairbanks and the Hon. John W. Yerkes were guests of honor at the banquet of the Tarheel Club at Greensboro, N. C. Both delivered addresses. Mr. Yerkes discussed the Philippine question at length, advocating the retention of the islands by the United States.

Republicans of Russell county have nominated the following for county officers: For judge, H. B. Dunbar; county attorney, M. E. Tarter; county clerk, Elmer Wheat; sheriff, E. T. Hughes; jailer, H. T. Sullivan; school superintendent, T. S. Isbell; assessor, Logan Wilson, Jr.; surveyor, S. W. Leach.

The trial for ball of the Hargises and Callahan continues at Lexington. It is hardly probable that the case will be finished this week.

At Hindman Elliot Dyer was shot five times by H. Cody, town marshal. Cody was shot once in the melee, Dyer is badly hurt but it is thought that he will recover. Cody's wound is not serious.

"Now," said the greatest magician, rolling up his sleeves to show that he had no concealed mechanism to deceive the eye. "I shall attempt my never failing experiment."

Taking from his pocket a silver dollar, he said: "I shall cause this coin to disappear utterly."

So saying, he lost the dollar to a friend.

## Incredible Brutality.

It would have been incredible brutality if Charles F. Lemberger, of Syracuse, N. Y., had not done the best he could for his suffering son. "My boy," he says "cut a fearful gash over his eye, so I applied Bucklen's Arnica Salve, which quickly healed it and saved his eye." All so good for burns and ulcers. Only 25c at Penny's Drug Store.

For what has once been "repartee,"  
Degenerates to "snes."

# CRITERION.

You all know what this means when found upon the HANGER of a man's coat. It means as perfect workmanship as man can perform—the cutting of the garment, the sponging of the goods, the fitting of the linings, the padding of the shoulders, the shape retaining front, the graceful set of the collar. Every point and detail is carefully made and I feel safe to-day in saying THE CRITERION CLOTHING for men is excelled by none. We have our Spring stock in all the latest colors and styles from \$10 to \$17.50.

# MASTIC MIXED PAINT

## Can't Be Touched

for painting houses. The reason's plain. Mastic is the purest, therefore the most durable and economical. There is a whole string of "other fellows" claiming "just as good as Mastic" but they don't prove it. Maybe they can't. The analysis of Mastic is published. It's made of pure lead, zinc and linseed oil—the most durable kind of paint—and its purity is therefore unquestioned.

As purity means durability, the splendid wearing qualities of Mastic have given it the title of "The Kind That Lasts," and this title is backed up by our absolute guarantee. Mastic is made by PEASLEE-GAULBERT CO., Inc. LOUISVILLE, KENTUCKY and we heartily recommend it to your trade.
